FINISHING

Sew the beanie together on the right side using invisible stitches. To do this, sew the last row with colour Pearl onto the first row in Onyx, making sure that the last Pearl rib is on top. (Fig. 2)

Turn the beanie inside out. Using a yarn thread, approximately 1.5 cm below the edge of the slip stitches, gather the top edge of the beanie by stitching through the slip stitches, pull the thread tightly to close the top of the beanie. Securely sew and cut the thread. (Fig. 2)

Turn the beanie right side out and fold the brim upwards as desired.
